

6. Write a program to calculate the tax for a taxable income of Rs. 5,10,000, if the tax rate is fixed at 5.7%

```
import java.util.Scanner;

public class tax {
    Run | Debug
    public static void main(String[] args) {
        double amount;
        Scanner y = new Scanner(System.in);
        System.out.println(x:"enter the input: ");
        amount = y.nextInt();

        // logic
        double od = 5.7/100;
        double final_amount = od * amount;

        // output
        System.out.println("after give the tax mothly income: "+ final_amount);
    }
}
```

Output:

```
enter the input:
510000
after give the tax mothly income: 29070.0
```
