

8. Write a program to print the largest of three numbers.

```
import java.util.*;

public class large {
    Run | Debug
    public static void main(String[] args) {
        int a, b, c;
        Scanner s = new Scanner(System.in);
        System.out.println(x:"enter the input: ");
        a = s.nextInt();
        b = s.nextInt();
        c = s.nextInt();

        if (a>b && a>c){
            System.out.println("the biggest number is: "+ a);
        }
        else if(b>a && b>c){
            System.out.println("the biggest number is: "+ b);
        }
        else {
            System.out.println("the biggest number is: "+ c);
        }
    }
}
```

Output:

```
enter the input:
5
6
7
the biggest number is: 7
```
