14. Write a program to print all the prime numbers between 1 and 100.

```java
public class prime {
    Run | Debug
    public static void main(String[] args) {

        for (int i = 1; i <= 100; i++) {
            boolean isPrime = true;
            for (int j = 2; j < i; j++) {
                if (i % j == 0) {
                    isPrime = false;
                    break;
                }
            }
            if (isPrime == true) {
                System.out.print(i + " ");
            }
        }

    }

}
```

Output:

```
1 2 3 5 7 11 13 17 19 23 29 31 37 41 43 47 53 59 61 67 71 73 79 83 89 97
```
