1. Write a program to print, "Hello world" five times.

```
public class hello{
    Run | Debug
    public static void main(String[] args) {
        for(int i =0; i<=5; i++){
            System.out.println(x:"hello world!");
        }
    }
}
```

Output:

```
hello world!
hello world!
hello world!
hello world!
hello world!
hello world!
PS C:\Users\User\
```
